

FORMS & CHECKLISTS

Plan and follow up your checklists and meetings, as well as filling out forms required for the daily work. IRIS Forms & Checklist module is easy to use and stay on top of things.

Forms and Checklists are pre-defined agendas, protocols or questionnaires with the capacity to appoint responsible persons certain actions. The module is very useful for recurring events such as meetings, Master relief-reports and other company specific documents needed to frequently be filled out and communicated.

Plan and follow up your checklists and meetings, as well as filling out forms required for day to day work.
