

**“Make it right from the beginning”
A module in IRIS that will take care of all elements in a
Change process, to ensure that a change will be a success.**

A change process in a company could sometimes be a failure. Uncontrolled, not communicated, endanger safety/environment and too expensive. And worst of all – Not necessary.

IRIS will take care of all kinds of changes:

- Permanent, Temporary or Emergency changes.
- External regulatory changes as well as changes required by laws and regulations.
- Safety, Security and Occupational Health changes.
- Equipment, System and Personnel changes.

All with:

- Action plan.
- Stakeholder / Responsible persons.
- Risk Assessments and Training needs.
- Review of financial cost Implications.
- Review and feedback of changes made.
- Review of implementation and Sign off.
