

# WORK PERMIT

## IRIS Work Permit module will simplify the permission process with very simple wizards and a logical work flow.

IRIS include a complete system for all kind of Work Permits:

- Hot Work
- Cold Work
- Work Aloft
- Confined Space
- Electrical
- Isolation

Risk Assessment's and procedures could be linked direct from the IRIS system.

Toolbox talks, Job cards, Isolation tags could be printed direct from the system for each permit.

Valid Permits displayed on all Computers onboard, including all Isolations.

IRIS keep track of length of validity, status of paused jobs and have a **"STOP the JOB"** function that could be used at all times.
